Subject: RE: AK Steel

The Order includes studies for the offtake piping and charging violations at #2 and #5 (and #3 requires a general "submit evidence that you're in compliance with..."), but the NOV does not allege either violation – only the leaking door Rule. Maybe she means they will either modify the NOV or send an additional NOV?

Re: sampling and ATSDR, the Order spells out future sampling by AK, not by Ohio, and the question was re: whether or not Ohio was planning to do more sampling – ATSDR already knows about the Order's requirement for AK to perform additional sampling.

Could Ohio claim that its order addresses the offtake piping and charging violations? (I'm confused by Sara's email, since the NOV and Order are already out, so it makes no sense to say they "will include these violations in the NOV and Order") Maybe she or Ohio meant to say the Order already addresses them? If the Order does not address the offtake and charging, then we need to tell Ohio why we have concluded that. Please let me know what you conclude.

Also, I suppose you can send ATSDR the Order, since it spells out future sampling.
